Hi Linda,

No, sorry we are not able to help with this. Generally, we recommend electronic copies to save trees, and I am sure that many participants would prefer the electronic copy to a hard copy.

Thanks,
Regan

Thanks. I never received a reply so I wanted to check to if you have an answer to assist with printing of the EPANET Handouts? Below is 'printing information taken from Ben Urbonas 9/6/18 email:

... "As to the request for printing by Linda, it would be wonderful if you could do it, but if you cannot, we understand. I do need a decision early this coming week so that we can arrange for printing the handouts if you cannot. Normally it costs us \$6.00 to \$7.00 to print this size of document in Denver, but do not know what it would cost in Cincinnati. We would be happy to reimburse EPA for getting it printed if the cost can be contained. Regardless, just let us know what your decision is...."

Best,
Linda

Hi Regan, Call you also send me the EPANET Class Room Number tomorrow? For some reason I can't find the class room number listed in our emails.

Thanks, Linda

Hi Regan. I will send you a list of the class participants on Monday for you to forward to EPA security. I think you told me the students are to bring their drivers license and that they will have to pass through a metal detector. Is there anything else related to security that we need to advise the students? I am putting together instructions for them and was hoping to send it out to them tomorrow.

Also, where are the students and instructors supposed to park? is there a map or a clearly marked area for visitors parking? I never received parking instructions - you did note in an earlier email from August that you will need to send me parking instructions. I think you were going to check to find the most current instructions for visitor parking.

I am also noting in the instructions that room AG-30 down the hall from the cafeteria has been reserved for the students' use during lunch.

Thanks again Regan. I look forward to your reply.

Linda
